

**Northeast Oklahoma Electric Cooperative
Online Bill Pay**

You can now pay your electric bill online if you have access to the internet. All you need to do to sign up for this convenient service is to fill out the form at the bottom of this page or call our Member Service Representatives at 1-800-256-6405. In order for us to allow you access, you will need to provide your e-mail address and a password. Once we have you set up, you will receive an e-mail from us stating you may now access your online account. Please note, it is a policy of Northeast to not give out its membership information to the public, this includes your e-mail address.

Paying your bill online is easy to do and secure. Click on the Services Menu of the REC Home Page and then click on "E-bill". You will be asked for your email address and password. Keep the password to yourself so no one else can access your account information.

You will be able to view many types of information you might find helpful. Besides the kilowatts used and the amount due you can check your monthly usage chart, payment history, billing history, average daily usage, average daily cost, and meter reading details

The processing of your credit card, debit card, or check number is handled by a nationwide company that specializes in this service alone. They have proven to be very secure. They follow the most strict Industry-standard security methods and all information is encrypted.

REC does not keep your credit card, debit card, or check number on file. For your safety, social security or driver's license numbers are masked to show only the last four digits. This procedure is very safe and secure.

When the transaction is complete, you will receive an email confirming your payment has been processed. Each month, you will receive an email notification when your bill is ready to view. You also will receive a paper copy of your bill by regular mail.
